Dear Mr/Mrs. Hande In Union.

I am honoured to be one of the recipients of the educational scholarship. Thanks to your generous support. I and my family are very grateful for your support by which, I am able to attend college.

I had begun my master level at Golden Gate International College. Now, I am studying in Masters second year and got the support from Hope and Challenge organization for continuously two years. My plans at this stage is to complete a major in English literature. Golden Gate International College offers one of the finest programs in it and I consider myself fortunate to be able to attend.

Hope and Challenge had also helped me in volunteering in my society. I enjoyed helping people, learn about community services provided to them. My educational pursuits would not be possible without generous support from scholarship sponsors like your organization.

Once again, many thanks for your generous support. We & family are exceedingly grateful for enabling this opportunity.

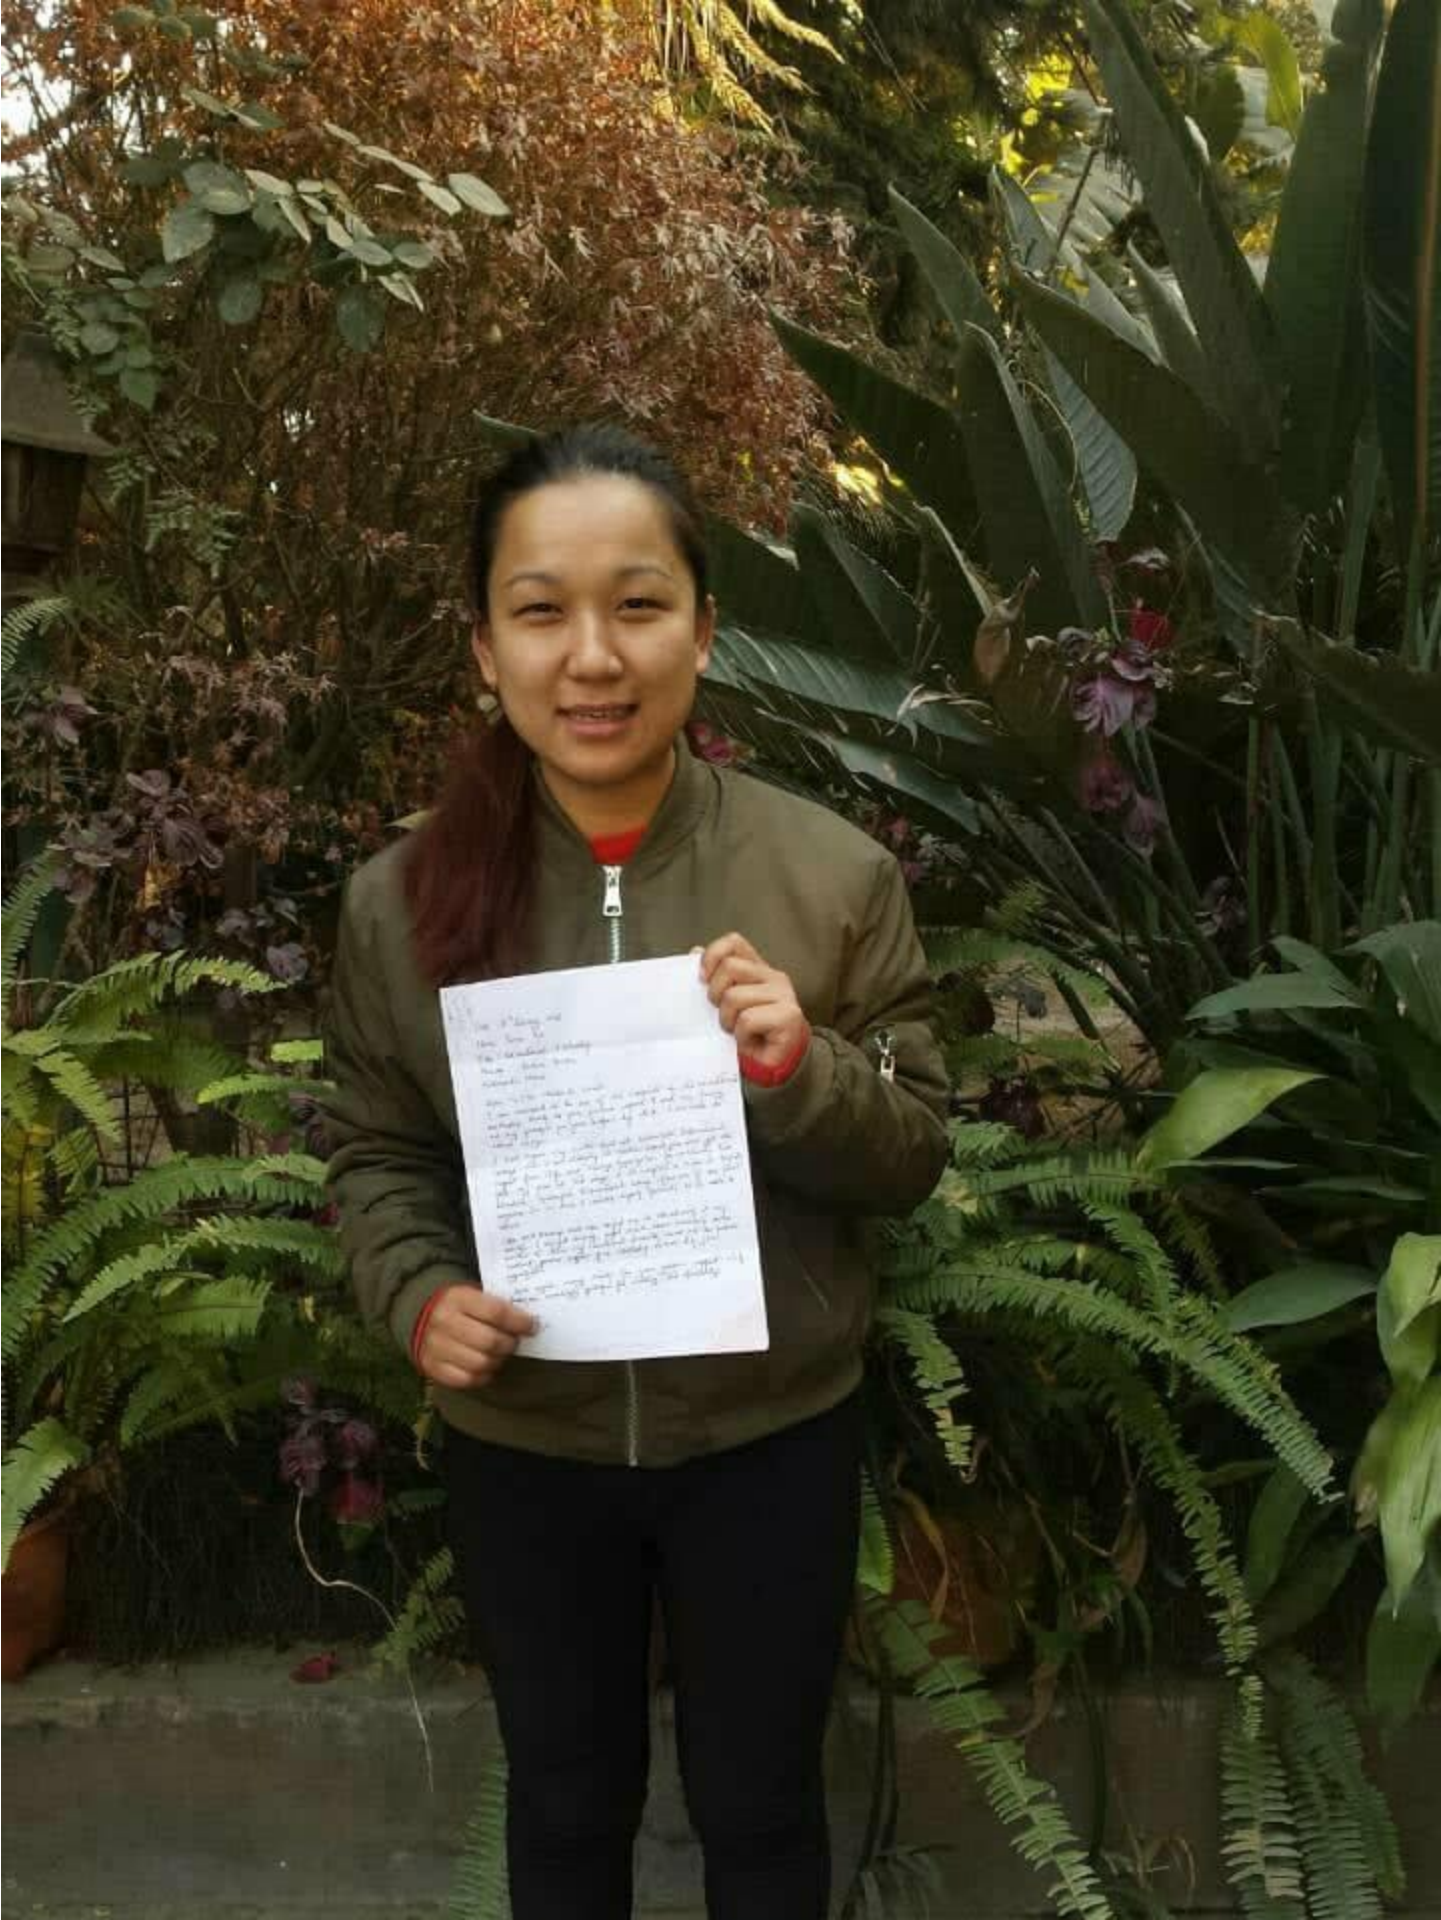

Sincerely,
Parra Rai.

My name is Panna Rai. I came to Kathmandu to pursue my further studies. I completed my primary school in village. So, to get the higher studies, I came Kathmandu.

I came from a small village which is in the Eastern part of Nepal. So, I left my village to get the high-education. I am the younger one in the family. My mother is a housewife and my father is involved in agricultural sector.

My hobby is to travel and to experience the unknown things that I am not aware of it. I also mainly like to read the autobiographical novel through which I can know the hardships, experiences they gain while getting successful in life. I am mainly influence by Paulo Coelho writings, the way he viewed towards life.

As being the student of English literature, my aim is to be a professor or a teacher. I like teaching and it is my dream, passion. So, I will acquire it by making my dream true. By teaching, I can gain knowledge and gain the experience which I lack. I like teaching because there lies the reciprocal relation between the student and the teacher. One's knowledge is incomplete without the experience with other people. So, my aim is to become a teacher as there is the reciprocal relationship between the two, where there is a mutual understanding of knowledge as well as sharing it.

Dear [Name],
I am pleased to see that you have received the book and the CD. I am glad to hear that you are enjoying it. I hope you will find it helpful in your studies. If you have any questions, please feel free to contact me. I will be happy to help you. Thank you for your letter. I am looking forward to hearing from you again. Best wishes,
