finally I have completed my studies. Now I am studying bachelore. It has been half month, I started my college. I want to study more and look over my family. I have to study four more years to complete my bachelore. After that I'm gonna have to look for a good job to support my family. telling him. He is ruining his life  
and also our. But still he is my

my mom have a hope through me.  
Even though he is big some she
